DETAILED ACTION

1. This communication is in response to amendment filed 3/30/09.

Continued Examination Under 37 CFR 1.114

2. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on 3/30/09 has been entered.

Response to Amendment

3. Claims 1,2 17 and 19 are allowed.

Reasons for Allowance

4. The following is an examiner's statement of reasons for allowance:

Art Unit: 3693

The claimed inventions pertain to a mobile terminal such as a cell phone or mobile phone connectable to a mobile communication network that enables a purchaser to carry out payment for purchase of goods and service ordered at a point of sale device such as a cash register.

Claims 1 and 2 both are independent claims and recite a novel mobile communication terminal which is connectable to (i) an input device for outputting data (e.g. a cash register of a store) for outputting data of a charge based on input purchased of items or a service to be purchased and (ii) a settlement device (e.g. a payment server of a payment card or a financial institution) which is able to transfer money from one account to a second account through the mobile communication network in response to receiving the data of the charge from the input device. The mobile communication terminal comprises a first reception unit to receive the data of the charge from the input device, a second reception unit configured to report data of an amount of money from the settlement device through the mobile communication network, a display unit to display the data of the charge and the data of amount of the money, a memory configured to ab able to

Art Unit: 3693

store the data from the input device at least until the report data is received by the second reception unit and a transmission unit configured to transmit an acknowledgment signal acknowledging the received report data to the settlement device.

dependent claims 17 and 19 are dependent claims and are deemed allowable for same reasons as independent claims 1 and 2 respectively.

Closest prior art Loeser (US 7,072,854) teaches a payment process using a mobile communication network. Herein a cash register (input device) transmits a payment demand (data of the charge) to a mobile device (mobile communication device) wirelessly (via mobile communication network). The mobile device generates a payment instruction and transmits to a payment center (settlement device). The payment center sends a payment confirmation to the cash register which upon receipt of the payment confirmation releases goods. Contrary to this arrangement, the mobile device of the present invention also enables receipt of report data of the amount of money to be transferred from a first account to a second account (i.e. the payment to be settled) from the settlement device through the mobile communication network via a second reception unit as stated

Art Unit: 3693

before. Loeser fails to teach at least this feature present in the allowed claims.

Jacobs et al. (WO 98/34203) illustrates in figure 7 a system employing satellite-fleet mobile communications between a mobile unit and a merchant cashier register for in-person purchases. The mobile unit shown in figure 7 of Jacobs et al. has the functionality of the mobile unit 312 illustrated in figures 1-6 of Jacobs et al. And, Jacobs et al. do not disclose or suggest that the mobile unit 312 comprises a memory configured to be able to store data of a charge from an input device at least until report data is received by a second reception unit, as recited in each of claims 1 and 2.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
